SUBJECT AND TITLE INDEX 1977

Acute poisoning
—Editorial—357
—Patients seen in the department of intensive care-JPMC, Karachi—358

Adrenergic receptors—302(S)

Affatoxin and liver cancer
—A preliminary survey in Karachi—351
—Editorial—423

Alpha Fetoprotein
—Patients with primary liver cancer and other liver diseases—348

Amino acids excretion
—Urine of newly born babies preliminary screening—440

Amniotic fluid phospholipids
—Predicting such complications before birth—256

Amoxycillin Trihydrate (ibeamox)
—Treatment of pyogenic meningitis—323

Anemia, iron deficiency
—Some host defence factors—405

Anti-depressant
—Effects of vivalan—325

Antileukemia agent
—L-Asparaginase—262(S)

Anxiety status
—General practice—395(S)

Blood donors
—Level of immunoglobulins in healthy patients—389

Blood Groups
—A survey—426

Blood pH low
—Management of diabetic patients—331

Carcinoma of oral cavity and oropharynx
—Habits and dietary pattern of—340

Cardiac Pacemakers—254(E)

Childhood Tumours
—In Karachi—346

Chronic diseases
—Need for epidemiological studies—334(E)

Chronic renal failure
—Surgery—371(E)

Clinical pharmacology
—Role in improving patient care in Pakistan—281

Clinical trial
—Clipizide in uncomplicated maturity on set diabetes mellitus—293

Diabetes mellitus
—Clinical trial with glipizide—293
—Heterogeneity of amylase—393

Diabetic patients
—Low blood pH management—311

Diagnostic evaluation of hypertension
—Pilot study in a hypertension clinic—375

Dietary pattern and habits
—Cases of carcinoma of the oral cavity and oropharynx—340

Drug information centres
—Improving patient care in Pakistan and other developing countries—300(S)

Editorial—254, 270, 292, 308, 322, 334, 357, 371, 385, 404, 423, 439

Environments effect
—Human functions (studies on habituation)—447(S)
—Human functions (studies on hormones)—414(S)
—Human functions (studies on water metabolism)—430(S)
—Human functions (studies on sweating)—397(S)

Epidemiological studies
—Chronic diseases—334(E)

Gall stones
—Microchemical analysis —443

Habits and dietary pattern
—Carcinoma of the oral cavity and oropharynx—340

Habituation studies
—Effects of Environments on human functions—447(S)

Haemodialysis—322(E)

Hepatitis
—Hepatitis B surface antigen—
—In health care personnel—373

Heterogeneity of amylase
—Diabetes mellitus—393

Histological grading
—Squamous cell carcinoma of the oral cavity—343

Hormones studies
—Effect of environments on human functions—414(S)

Host defence factors
—Iron deficiency anemia—405

Host resistance
—and phagocytosis—404(E)

Human body
—Stress response—292(E)

Hypertension clinic
—Report of preliminary experience—410

Hypertension diagnostic evaluation
—Pilot study in a hypertension clinic—375

Hypokalaemic patients
—Effect of oral potassium supplements on plasma potassium—424

Immunoglobin serum
—Editorial—385
—Healthy subjects and blood donors—389
—Liver disease—391
—Transferin in preschool children—386

Infection
—Iron and resistance—317(S)

Infective hepatitis
—Liver abscess—428(CR)

Inflammations and pain
—Effect of prostaglandins—326(S)

Insecticide poisoning, organo-phosphorus
—Review of 53 cases—361

Intensive care value
—Obstetric and neonatal (perinatal) units 278(S)

Intestinal parasites
—Frequency and geographical distribution in Iran—379(S)

Iron and resistance
—Infection—317(S)

Iron deficiency anemia
—Some host defence factors —405)

L-Asparaginase
—Antileukemia agent—262(S)

Lactic acid—270(E)

Laparoscopy—439(E)

Liver abscess
—Infective hepatitis—428(CR)

Liver cancer
—Aflatoxin—423(E)
—Aflatoxin in Karachi. A preliminary survey—351
—Liver diseases in patients with Alpha—fetoprotein—348

Liver disease
—Immunoglobulins—391
—Pediatric in Karachi—296
—Rosette forming T lymphocytes in healthy subjects and patients—408

Low blood pH
—Management of diabetic patients—311

Malignant tumours
—Seven centres of Pakistan—335

Management of diabetic patients
—Low blood pH—311

Meningitis pyogenic
—Amoxycillin trihydrate (ibeamox) in the treatment—323

Metabolic acidosis and lactic acid—270(E)

Mutilated nose—272
Nasal mutilated—272
New-born infants
—Amino acid excretion in the urine—440
—Study of JPMC—258

Normokalaemic patients
—Oral potassium supplements on plasma potassium—424

Obstetric and neonatal (Perinatal) units
—Intensive care—278(S)

Occupational medicine
—Development and importance for Pakistan—446(S)

Oral cavity of squamous cell carcinoma
—Histological grading and clinical stage—343

Oral cavity and oropharynx carcinoma
—Habits and dietary pattern—340

Oral mucosa
—Effects of pan and it's ingredients—353(S)

Oral potassium supplements
—Effect on plasma potassium in Normo-Kalaemic and hypokalaemic patients—424

Organo-phosphorus insecticide poisoning
—Review of 53 cases—361

Oropharynx and oral cavity carcinoma
—Habits and dietary pattern of—340

Paediatric liver disease in Karachi—295

Pain and inflammation
—Effect of prostaglandins—326(S)

Pan and its ingredient effects
—on ora mucosa —353(S)

Patient care in Pakistan
—Role of clinical pharmacology—281

Phagocytosis
—Host resistance—404(E)

Phospholipids
—Fatal lung—256

Pineal calcification—309

Plasma potassium
—Effect of oral potassium supplements in normokalaemic and hypokalaemic patients—424

Poisoning of organs—phosphorus insecticide
—Review of 53 cases—361

Poisonous bee stings—289(L)

Post traumatic pulmonary insufficiency—308(E)

Potential role of visitors
—Psychiatric inpatients—275

Prostaglamdins
—Pain and inflammations—326(S)

Psychiatric inpatients
—Potential role of visitors—275

Pulmonary insufficiency
—Post traumatic—308(E)

Pyogenic Meningitis
—Amoxycillin trihydrate (ibeamox)—323

Renal failure chronic
—Surgery—371(E)

Repetitive ventricular tachycardia—289(L)

Respiratory distress syndrome—256

Rosette forming T Lymphocytes
—In healthy subjects and patients with liver disease—408

Schizophrenic patients
—Effect of thiothixine—313
—Effect of trifluoperazine—313

Serum amylase
—Diabetes mellitus—393

Serum immunoglobulin
—transferin in preschool children—386

Stress response
—in the human body—292(E)

Surgery in chronic renal failure—371(E)

Survey of blood groups—426

Squamous cell carcinoma of the oral cavity
—Histological grading and clinical stages in estimating prognosis—343

Sweat glands
—Effect of environments on human functions—397(S)

T-lymphocytes rosette forming
—In healthy subjects and patients with liver disease—408

Thiothixine
—Acutely disturbed schizophrenic patients—313

Trace element analysis
—Diagnostic tool—361(S)

Trifluoperazine
—In acutely disturbed schizophrenic patients—313

Tumours
—Of childhood in Karachi—346

Tumours, Malignant
—in seven centres of Pakistan—335

Ventricular tachycardia repetitive—289(L)

Vivalan
—New anti-depressant —325

Water metabolism study
—Effect of environments on human functions—430(S)

World-wide distribution of intestinal parasites
—Frequency and geographical distribution in Iran—379(S)
